About me

A student pursuing a Bachelor of computer application (BCA),which is an exciting field with many opportunities!In this program,I am likely gaining knowledge and skills in the computer science,programming languages, software development and system analysis.A BCA is often the stepping stone to a career in various tech-related roles,whether it is in the software development network administation,database management or IT support.

As a BCA student,I was likely learning about

1.Programming languages :c++ ,Java, python,etc

2.Database management:SQL,MySQL,etc
